

Here's a Quarter (Call Someone Who Cares)

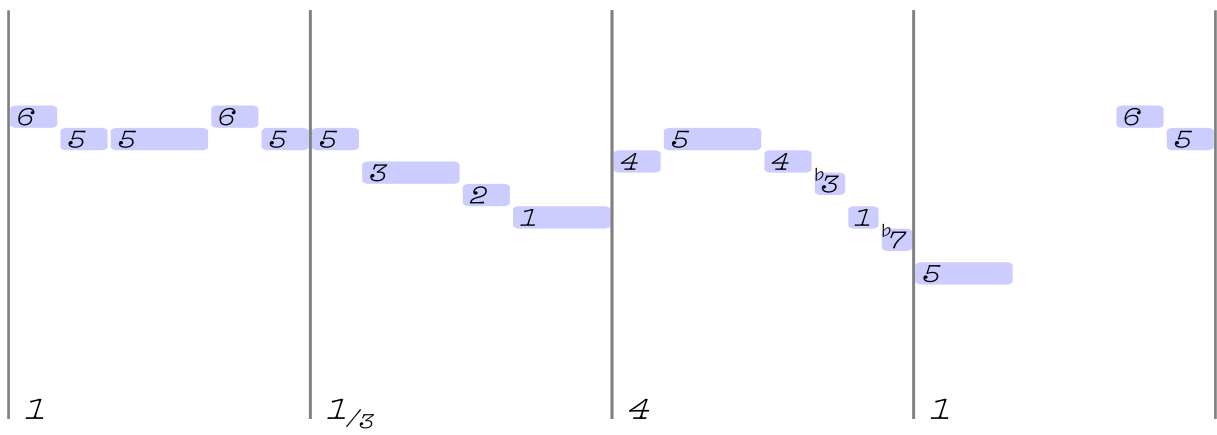

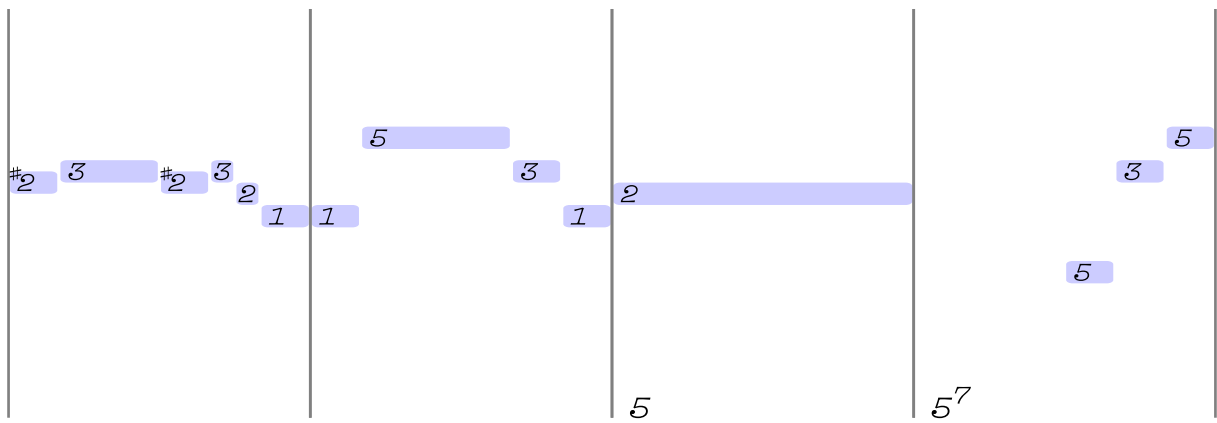

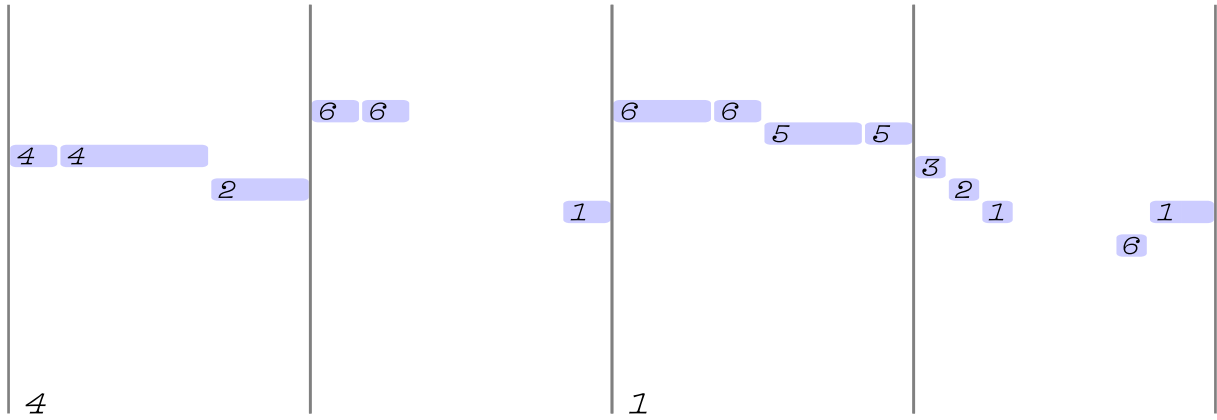

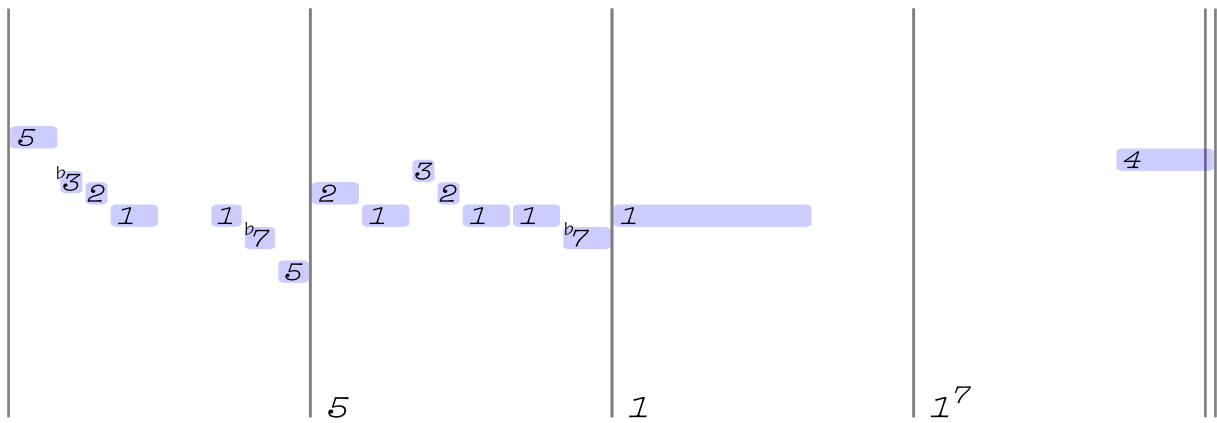

$$1 = C$$

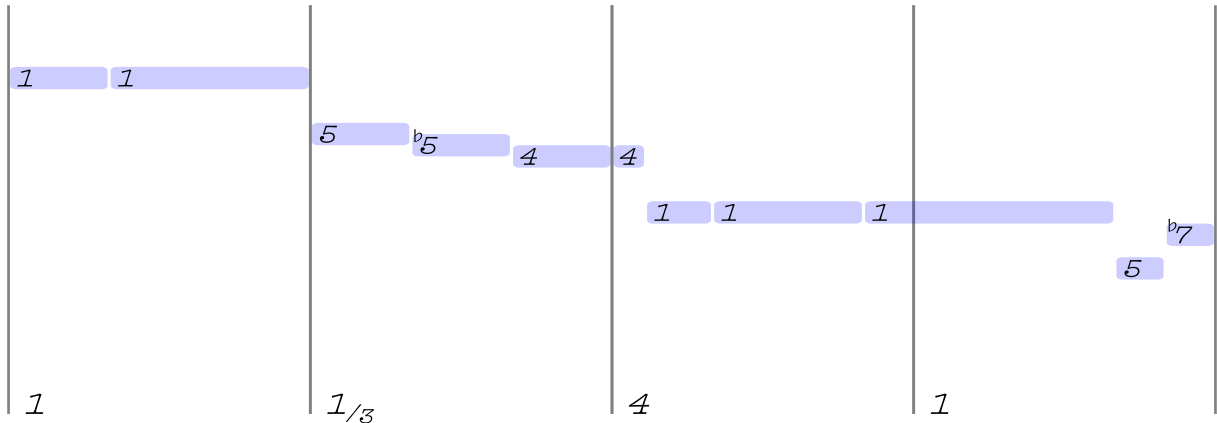

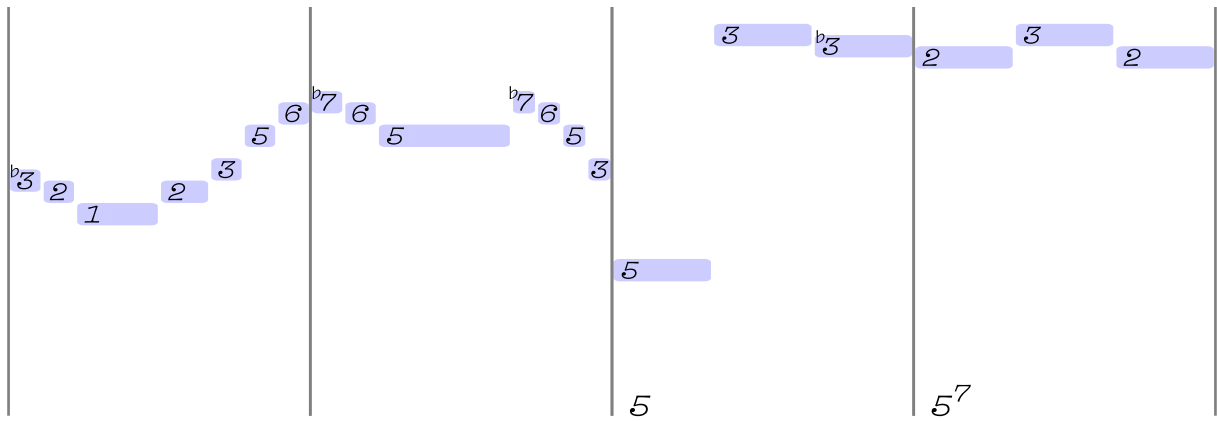

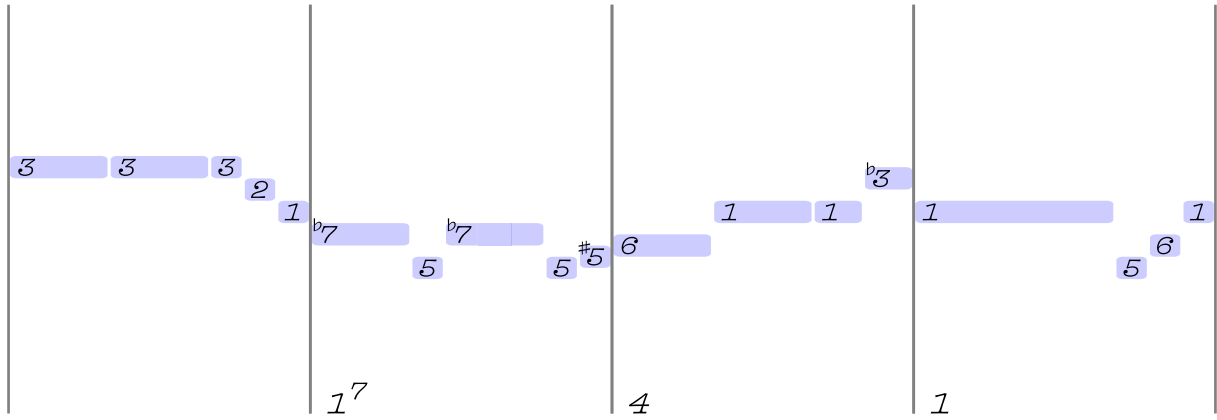

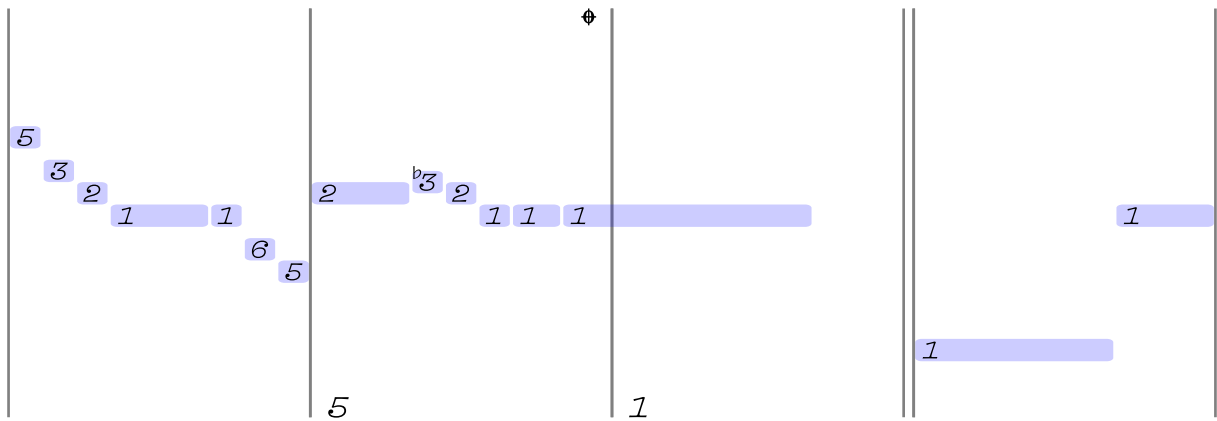

Travis Tritt

Diagram illustrating a 2D grid with 4 columns and 2 rows. The top row contains 1s and the bottom row contains 5s. The first column has a 1 below the 5. The second column has a 1 above the 5. The third column has a 1 above the 5. The fourth column has a 1 above the 5.

The diagram illustrates a sequence of numbers arranged in a zig-zag pattern across five vertical lines. The numbers are placed in light blue rectangular boxes. The sequence starts on the first line, moves to the second, then back to the first, and so on, ending on the second line.
