

Love Will Keep Us Together

1 = C

Neil Sedaka

5	$\flat 7$	6	5	4	4	5	2	3
1						3^{07}		

	$\flat 7$	6	5	6	$\flat 3$	1	6	1
6 ⁷					4			

$\flat 3$	2	1	1	1	5	4	5	$\flat 3$
4 ⁻					1			

3	3	3	3	2	1	5	4	5	4	3	4	5	1	1	1
1 ⁴					1 ⁷				4		1/3		2 ⁻⁷		2 ⁻⁵

1.	$\flat 3$	2	1					
1								

2.	$\flat 3$	2	1	2	6	5		
1								

The diagram illustrates the sequence of numbers 5, 4, 3, 1 and their corresponding prime factorizations b_3 , b_7 , b_6 , and 5^{11} . The numbers are arranged in a descending staircase pattern from left to right. A vertical line separates the first two stages (5 and 4) from the last two (3 and 1). The prime factorizations are written below the numbers: b_3 under 5, b_7 under 4, b_6 under 3, and 5^{11} under 1.
