

I'm So Glad We Had This Time Together

$$1 = G$$

Joe Hamilton

The figure shows a sequence of seven diagrams, each separated by a vertical line, illustrating the construction of a 2D Young diagram. The diagrams are as follows:

- Diagram 1: A single box labeled '2'.
- Diagram 2: Two boxes labeled '2' and '1'.
- Diagram 3: Three boxes labeled '2', '1', and '3'.
- Diagram 4: Four boxes labeled '2', '1', '3', and '4'.
- Diagram 5: Five boxes labeled '2', '1', '3', '4', and '5'.
- Diagram 6: Six boxes labeled '2', '1', '3', '4', '5', and '6'.
- Diagram 7: The final 2D Young diagram with rows of lengths 4, 3, 2, 1 and columns of heights 4, 3, 2, 1. The boxes are labeled with numbers 1-7, indicating the order of addition. The final diagram is enclosed in large square brackets.

Number of Parents	Number of Children (N.C.)
