

The Lion Sleeps Tonight (Transcribed)

$$1 = C$$

Solomon Linda

A 3x3 grid with blue squares and numbers. The top row contains a blue square with '1' in the first column, a blue square with '4' in the second column, and a blue square with '5' in the third column. The middle row contains a blue square with '1' in the first column, a blue square with '4' in the second column, and a blue square with '5' in the third column. The bottom row contains a blue square with '1' in the first column, a blue square with '4' in the second column, and a blue square with '5' in the third column. The grid is enclosed in a dashed border.

5^7

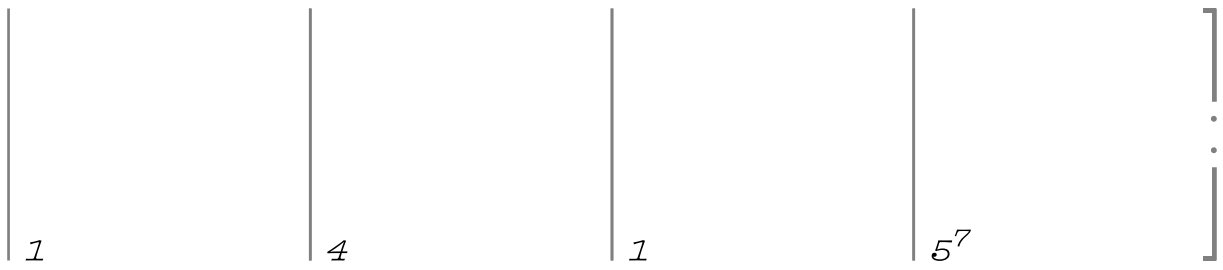

Diagram illustrating a staircase with four sections. The steps are numbered 1 through 10. The first section has 1 step (1), the second has 4 steps (2, 3, 4, 3), the third has 1 step (2), and the fourth has 5 steps (3, 2, 1, 2, 2). The total number of steps is 11.

The figure consists of four bar charts, each representing a different group. The vertical axis for all charts is labeled with 1, 4, and 5⁷. The horizontal axis for each chart has bars of varying heights, with the height of each bar labeled with a number.

- Chart 1:** The first chart has a single bar of height 5, labeled with the number 5.
- Chart 2:** The second chart has three bars of heights 3, 2, and 3, labeled with the numbers 3, 2, and 3 respectively.
- Chart 3:** The third chart has four bars of heights 4, 3, 2, and 2, labeled with the numbers 4, 3, 2, and 2 respectively.
- Chart 4:** The fourth chart has three bars of heights 3, 2, and 1, labeled with the numbers 3, 2, and 1 respectively.

1, 2.

The diagram illustrates the decomposition of the number 5 into its prime factors. It consists of four vertical lines representing prime factors. The first line is labeled '1' at the bottom and has a horizontal bar labeled '5' above it. The second line is labeled '4' at the bottom and has a horizontal bar labeled '5' above it, with a smaller bar labeled '4' below it. The third line is labeled '1' at the bottom and has a horizontal bar labeled '5' above it, with a smaller bar labeled '4' below it. The fourth line is labeled '5^7' at the bottom and has a horizontal bar labeled '5' above it, with a smaller bar labeled '4' below it.
