

Early Mornin' Rain

$$1 = D$$

Gordon Lightfoot

The figure displays 15 diagrams arranged in a 5x3 grid, illustrating the evolution of a 1D lattice system. Each diagram shows a horizontal line with vertical markers and colored segments (blue, orange, green, red, purple) representing different states. Numbers are placed below the markers to indicate specific values or indices.

The rows are labeled on the left with the following symbols: $\left[\begin{smallmatrix} \vdots \\ 1 \end{smallmatrix} \right]$, \vdots , \vdots , $\%$, and \vdots . The columns are labeled at the bottom with the following symbols: 1 , 4 , and $4_{/1}$.

The diagrams show the progression of the system over time or space, with the segments and numbers indicating the state of the lattice at each step. The colors represent different states, and the numbers indicate the position or index of the markers.
